THE GLOBAL TILE & STONE EXPERIENCE

Each collection is born from an idea, a gesture or a glance at nature. At this edition, we are presenting proposals that combine tradition and modernity, technique and emotion, material and design.

From the mineral calm of stone to the warmth of clay, through the reinterpretation of terrazzo and the graphic strength of hydraulic floors, our new series explore textures, colours and formats that expand the possibilities of architectural and interior design. Mytos, Origin, Rift, Edge, are more than just surfaces: they are sensory experiences that transform spaces and reinforce the identity of each project. Collections designed to inspire, excite and accompany the creativity of architects, designers and ceramic enthusiasts.

Cada colección nace de una idea, de un gesto o de una mirada a la naturaleza. En esta edición presentamos propuestas que combinan tradición y contemporaneidad, técnica y emoción, materia y diseño.

Desde la calma mineral de la piedra hasta la calidez del barro, pasando por la reinterpretación del terrazo y la fuerza gráfica de los suelos hidráulicos, nuestras nuevas series exploran texturas, colores y formatos que amplían las posibilidades del diseño arquitectónico y de interiores.

Mytos, Origin, Rift, Edge, son más que superficies: son experiencias sensoriales que transforman los espacios y refuerzan la identidad de cada proyecto. Colecciones pensadas para inspirar, para emocionar y para acompañar la creatividad de arquitectos, diseñadores y amantes de la cerámica.

Mytos

Mytos was born from the observation of natural stone and the desire to transfer its visual and tactile richness to the world of ceramics. Its marbled veins and matte texture recreate minerality with surprising realism, offering a timeless aesthetic full of serenity.

The matt finish enhances the reliefs and multiplies the tactile sensation, while the non-slip versions allow the collection to be extended to terraces, wet areas and exteriors. A decorative relief piece completes the series, adding dynamism and volume to accent walls. Mytos is the mineral calm of stone transformed into resistant, precise and deeply emotional ceramics.
